Building "Life Warriors"

To-Do List

Ages 11-14

Parents: Please use this To-Do list to monitor your child's outstanding accomplishments at home and at his academic school. Being responsible for specific tasks and completing them, satisfactorily, is an important element of your child's martial arts training, and will help him develop Black Belt excellence in all of his life's roles. Make sure your child completes this list and submits it to his instructor during each week's first class, as it is a belt requirement.
